MANDATORY QUARANTINE OF XT24SD MACHINES

Failure to implement this bulletin could result in death or serious injury.

Snorkel has received a report of an incident involving a Snorkel XT24SD machine in Europe, where a structural failure occurred.

With this knowledge Snorkel is mandating that all XT24SD machines are immediately removed from operations and placed in quarantine, until further notice.

We will provide you with further updates once we have successfully completed our investigation.
